

FOUNDING SPIRITS

HAND SANITIZER

PRESENTED BY FARMERS RESTAURANT GROUP

FOUNDING SPIRITS HAND SANITIZER

When COVID-19 arrived in our region, Founding Spirits quickly responded and refocused our operations to make hand sanitizer. We used our distillery in the heart of our Nation's capital and the World Health Organization recipe to create our FDA-approved Founding Spirits Hand Sanitizer.

Founding Spirits Hand Sanitizer is relatively thin and pours like water. This WHO recipe does not have a thickening agent to make it more like a "gel." It works well in spray bottles. It can easily refill existing stations or bottles, dispenses simply, and dries quickly on the hands with no residual stickiness.

Since early April, we have been selling our Hand Sanitizer in bulk quantities to area hospitals, healthcare providers, first responders, government offices, and other companies. Several area non-profits have donated funds to provide our Hand Sanitizer to COVID-19 first responders.

HOW TO ORDER

Founding Spirits Hand Sanitizer is currently available for individual sale in spray bottles, larger refill bottles, and for bulk purchase. Our Founding Spirits team can provide local delivery within the DMV area. We also have a partnership with UPS for nationwide shipping and delivery.

To order, contact Hillary Miko at HMiko@FRG.Farm or (609) 610-8822.

FOUNDING SPIRITS

Founding Spirits is a DC-based distillery that crafts award-winning spirits. Majority owned by American family farmers, their values are at the heart of our distilled spirits and our operations. Every step of our process, from grain to glass, shows our commitment to farmers, high-quality ingredients, and handcrafting premium products. Creating Hand Sanitizer in response to our community's need is a natural extension of who we are and how we operate. We're proud to be able to help our community and make a positive impact during these challenging times.

FOUNDING SPIRITS HAND SANITIZER

Founding Spirits Hand Sanitizer is FDA-approved and uses a recipe from the World Health Organization. This relatively thin formula does not have a thickening agent and pours like water. Our Hand Sanitizer works well in spray bottles. It can easily refill existing stations or bottles, dispenses simply, and dries quickly on the hands with no residual stickiness.

AVAILABLE SUPPLIES

55 Gallon Drum + Pump \$2,000

5 Gallon Bucket + Pour Spout \$225

SHIPPING & DELIVERY

Our Founding Spirits Team can provide local delivery within the DMV area. We are also partnering with UPS for all of your nationwide shipping needs.
